

Greenfleet

Green Light Couriers
Mr Matthew Blanchard
862 CANTERBURY ROAD
BOX HILL VIC 3128

Dear Sir/Madam

We are delighted to welcome you to Greenfleet.

Your donation will help to reduce the impact of CO₂ greenhouse gases that contribute to climate change and global warming. The trees will be planted in river catchments in your state where possible. As they grow they will not only absorb your greenhouse emissions, they will also create essential habitat and help to tackle the widespread problem of salinity.

Our largest tree planting project is 'Murray Darling Rescue', an ongoing partnership with Scouts Australia which aims to bring life back to the Murray-Darling by planting millions of native trees. Massive clearing of vegetation and an ever-increasing demand for water has caused a huge salinity problem that threatens to destroy the land.

We hope that Murray Darling Rescue will help to focus public attention on the health of this river system, while the planting of trees will bring real benefits to the living eco-systems that are a part of the Murray-Darling Basin.

To keep you up to date with our achievements, we encourage you to visit the Latest News section of our website which is updated regularly with news items and media releases.

Please find below a tax-deductible receipt for your records.

Thank you for your support.

Yours sincerely,

Sara Gipton
Acting Chief Executive Officer
